

ABOUT TRANSITION TALES PERFORMANCES

Transition Tales are recreating an important part of our heritage; the transmission of oral history through interactive storytelling performances. Bards, minstrels, poets, storytellers; we bring them all together in a new twenty first century creation; we call it StoryWeaving.

StoryWeaving shares and gathers tales of positive change with the inspired mythic rhythmic fairytale style of storyweaver WynnAlice to the accompaniment of the divinely inspired and exquisite musical improvisation of Christoffer de Graal, and others. Participants are invited to add new strands to the story to be woven in to future renditions of the Tales of Our Times.

We LOVE any opportunity to come and tell the Tales of Our Times and co -create the next chapter with you. Contact us to make a booking.

We ask for our expenses to be met and for our time to be valued. In monetary terms we think we are worth at least £30 an hour each. That has never stopped us performing for less if we thought the longing was great enough and the money not there. We believe money is simply a token of exchange; it could be you have something else we'd be happy to trade with you for.

Feel free to download our poster to use as a template for your Transition Tales event.
